

WELIKANDAGE SAMEERA LAKMAL

IT ADMINISTRATOR

PROFILE

IT professional with over 8 years of experience across public and private sector organizations, specializing in Windows Server administration, Active Directory, Microsoft 365, network infrastructure, and cybersecurity. Holds a BSc (Hons) in Computer Networks and Security (Wrexham University, UK) together with an HND in Information Technology, CCNA, and CompTIA Security+ certification. Proven ability to administer enterprise systems, manage firewalls and SMB level Projects, implement endpoint protection, coordinate vendors, and maintain business continuity through structured backup and disaster recovery practices, consistently delivering reliable, well-documented IT support in fast-paced environments.

CORE COMPETENCIES (ALIGNED TO IT ADMINISTRATOR ROLE)

- **Systems & Directory Services:** Windows Server administration, Active Directory Services, Group Policy, Microsoft 365 and cloud service management.
- **Network Infrastructure:** Design, deployment and maintenance of LAN/WLAN, TCP/IP, VLANs, DNS, DHCP and internet connectivity.
- **Security:** Firewall administration (Cisco ASA Firewall), endpoint protection (Kaspersky Security Console), antivirus coordination and cybersecurity best practices.
- **Virtualization & Continuity:** Exposure to virtualization environments, data backup, and disaster recovery planning to safeguard business operations.
- **Hardware & End-User Support:** Installation, configuration and troubleshooting of desktops, laptops, printers, network devices and other IT equipment; first- and second-level technical support.
- **Asset & Vendor Management:** IT asset lifecycle tracking, software licensing records, procurement, and coordination with external vendors through SLAs.
- **Documentation & Compliance:** Preparation of technical specifications, IT policies, and operational reports in line with organizational standards.

WORK EXPERIENCE

IT Assistant | Information Technology Resources Development Authority – W.P

1 May 2026 – Present

- Continue to provide enterprise system, network, and end-user technical support following completion of the acting Network Administrator assignment, applying the full scope of responsibilities and experience gained in that role.
- Support Active Directory Services, LAN/WLAN administration, firewall and endpoint security monitoring, and IT asset/vendor coordination across multiple government sites.

Network Administrator (Acting) | Information Technology Resources Development Authority – W.P

1 November 2025 – 30 April 2026

- Administered enterprise systems and Active Directory Services; deployed software via SCCM; planned, designed, and maintained LAN/WLAN networks across multiple government institutions.
- Led ICT project implementation from planning through deployment; managed external vendors through SLAs; prepared technical specifications and oversaw IT asset lifecycle and procurement.
- Delivered first- and second-level technical support, diagnosing hardware/software issues and managing network printers across multiple sites.
- Monitored firewall systems (Fire Power Management Center) and implemented endpoint security (Kaspersky Security Console); managed telecommunication, CCTV and PABX systems, and coordinated antivirus protection.

Rathna, Araliya Mawatha,
Bombuwala, Kalutara
DOB: 21 Jan 1989 | NIC: 890213090V

TECHNICAL SKILLS

- Windows Server Administration
- Active Directory & Group Policy
- Microsoft 365 & Cloud Services
- Networking: TCP/IP, VLAN, DNS, DHCP
- Firewall Administration (Cisco ASA)
- VPN & Remote Connectivity
- Virtualization (VMware / Hyper-V)
- Backup & Disaster Recovery
- Endpoint Security & Antivirus
- IT Asset & License Management
- Hardware & Software Troubleshooting
- Vendor Coordination & Procurement

SOFT SKILLS

- Analytical & Problem-Solving
- Documentation & Reporting
- Customer-Centric Communication
- Time Management
- Team Leadership

LANGUAGES

- Sinhala — Fluent
- English — Working Proficiency

MEMBERSHIPS

- Computer Society of Sri Lanka (CSSL)
- Internet Society (ISOC)

LINKS

- Credly: www.credly.com
- LinkedIn: www.linkedin.com

- Implemented data storage and analysis systems, conducted user training programs, and maintained technical documentation for ongoing operational support.
- Delivered end-to-end IT solutions from estimation and design through deployment, ensuring compliance with government IT standards.

IT Assistant | Information Technology Resources Development Authority – W.P

October 2020 – 30 October 2025

- Provided day-to-day IT support including system administration, network connectivity, hardware/software troubleshooting, and helpdesk assistance across government sites.
- Assisted with IT asset tracking, technical documentation, and coordination with vendors and service providers ahead of promotion to the acting Network Administrator role.

Cable & ICT Technician | P.K.T Constructions

August 2018 – September 2020

- Installed, configured and maintained routers, switches and network devices; managed fiber optic and copper cabling for high-speed internet and PEO TV solutions.
- Diagnosed and resolved technical issues across telecom environments.

Telecommunication & Network Technician | Luminex (Pvt) Ltd

May 2016 – February 2018

- Maintained overhead and underground cable systems; supported project coordination and ensured compliance with technical standards.

Telecommunication & Network Technician | Sri Lanka Telecom PLC

March 2015 – May 2016

- Supported network infrastructure management, telecom system administration, system integration, performance optimization and technical documentation.

EDUCATION & CERTIFICATIONS

BSc (Hons) in Computer Networks and Security

Wrexham University, UK

Higher National Diploma in Information Technology (HNDIT)

Sri Lanka Institute of Advanced Technological Education (SLIATE)

Cisco Certified Network Associate (CCNA)

National Youth Services Council (NYSL), Sri Lanka

Key Certifications

- Diploma in Linux Network Administration; Diploma in Hardware & Networking; Diploma in Desktop Publishing
- Data Center and Networking Administration- (VTC)
- CompTIA Security+ Certification (KodeKloud)
- Official Certified in Cybersecurity (ISC2 CC)
- Google Cloud Certification
- Multi-Cloud Network Associate (Aviatrix)
- Web Protection Associate Certificate (OPSWAT)
- EnGenius Certified Network Specialist
- Introduction to Critical Infrastructure Protection (CIP)
- Microsoft Certified Technology Specialist (MCTS)
- Service Gateway ICT Staff Course Certificate (UNICEF)
- Programming in Python – CODL, University of Moratuwa | Web Development: Web Design for Beginners – CODL, UOM

KEY PROJECT IMPLEMENTATIONS

- Data Network, CCTV and PABX System — Engineers Office, Mathugama
- Multi-Site CCTV Installation — 10 Craft Lanka Shops & Stores
- Data Network & PABX Integration — Department of Revenue, Kalutara
- PABX System Deployment — COOP Head Office (Colombo) and Waste Management Authority, Karadiyana

PROFESSIONAL TRAININGS

- CCNA Based Enterprise Network Implementation (I) — Sri Lanka Telecom Training Centre (2023)
- Optical Fiber Technology Training — Sri Lanka Telecom Training Centre (2024)
- Cloud Foundation for Aspiring IT Professionals — NextGen Campus (2024)
- IT Procurements — ITRDA (2026)
- Official ISC2 CC Online Self-Paced Training (2023)
- In-Plant Training: Information Technology & Network — Sri Lanka Telecom OPMC, Panadura (2014)

CURRICULAR ACTIVITIES & EXTRA SKILLS

- Chairman, United Trade and Industry Owners Association
- Secretary, ITRDA Welfare Association
- Social Media Management, Digital Marketing & Online Brand Management
- Artificial Intelligence & AI Tools (ChatGPT, AI video editing tools)
- Mobile Application Development (Android)
